

## 2018 NSD STEAM EXPO Recommendations

Which projects would you recommend for the upcoming STEAM EXPO on April 19, 2018, at Neshaminy High School?

Consider:

- Project Quality – Does the project present a problem, demonstrate a clear process, and come to a clear conclusion?
- Neatness – Hand printed or computer graphics should be treated equally as long as the project is neat and visually easy to follow.
- Presentation – Did the Scientist (or team) present information clearly? Did he or she appear to understand the project?
- Interest – Did you find the topic interesting?

Please choose up to 6 projects.

Project Name

Scientist(s) (please identify at least one member of a group)
